

STATIONARY FUEL CELL – HOW IT WORKS

ENERGY AND ENVIRONMENTAL BENEFITS

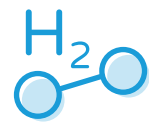

30-50%
CO₂
emission
reductions

**Improved
air and
life quality:**
no particles,
no noise

Can avoid
€62bn
in grid reinforcement
and is a
**Smart Grid
solution**

**Green
Gas and
Hydrogen
ready**

CONSUMERS AND LOCAL COMMUNITIES BENEFITS

30%
Energy
savings

**Reduced
energy bills**

10.000
happy consumers in
Europe and counting

**Empowering
citizens**
and businesses to deliver
the energy transition

INDUSTRIAL LEADERSHIP

**More than
€200m**
private investments by
key EU manufacturers

**Growing EU
industrial global
leadership**

Potential for more than
10.000 jobs
in manufacturing
and maintenance
